

You won't find anyone who will work harder for you than Karla and Jim. These aren't the kind of realtors that just stick a sign in your lawn and sit back and wait for something to happen (something I have personally experienced). They will take a personal interest in making sure everything that can be done is being done and that you never feel like you are going through the process alone. They have variety of marketing tools they use to make sure your house is being advertised well. They are friendly, knowledgeable, efficient, and work seamlessly as a team. I have been through the process of selling a home and buying a new one with them. I have also observed them as they have sold many homes in our immediate area, and have seen the same dedication to their other clients as well. If you have a house to sell, Karla and Jim are the team that can make that happen. If you are looking to buy a home, Karla takes a real interest in exactly what you are looking for, and will work to get you the very best deal possible when you find the home you want. You just can't go wrong working with Karla and Jim at Harmony Real Estate.
